

To Setup IR Touch screen.

Go to www.teamboard.com.au

Download teamboard suite 5 drivers

1. Prior to installation ensure you have logged onto the computer under a local administrator
2. Run the setup.exe file
3. when Teamboard install window displays, select **Teamboard, IR,USB** ref to diagram below

4. Run through remaining installation prompts

Troubleshooting

5. Ensure that teamboard IR is selected from the teamboard properties

Go to control panel/teamboard /replace device select teamboard, IR

6. check connection status by opening the teamboard properties window and when Teamboard driver listed in (top left corner)changes from red to black the teamboard is now connected.
