

WizTeach Software

Tools for Teachers

5 user licence included with every TeamBoard Interactive Whiteboard Purchase

- ✓ WizTeach is a revolutionary new interactive software that is designed for use with any interactive whiteboard, interactive projector or touch screen hardware
- ✓ WizTeach interactive software is a collection of easy to use, interactive teaching tools designed to work alongside any software application, curriculum content or live on the internet, allowing you to annotate, draw and explain a concept while working inside your web browser or other software application
- ✓ Works with programs that you are familiar with making it easy to learn
- ✓ The 75 curriculum tools work dynamically together to make on the spot use seamless
- ✓ Includes tools for Maths in areas such as numbers, measurement, geometry, graphs & data and games
- ✓ Also includes Literacy tools and games, Geography, Voting and Capture tools as well as a 3400 strong media bank
- ✓ Wizteach is now integrated with the Qwizdom Response Systems allowing you to pose questions and gather user feedback within your WizTeach content
